## SUMMARY

Full Stack Developer and B.Tech student with hands-on experience building scalable web applications using React, Node.js, and MongoDB. Active open-source contributor across GSSoC, SSoC, C4GT, and Summer of Bitcoin. Strong interest in teamwork, disciplined development practices, and continuous learning.

## TECHNICAL SKILLS

|            |                                                                                           |
|------------|-------------------------------------------------------------------------------------------|
| Languages  | : JavaScript, TypeScript, C++, Python, HTML, CSS, PHP                                     |
| Frameworks | : React.js, Next.js, Express.js, Node.js, Tailwind CSS, Bootstrap, Redux Toolkit, Zustand |
| Tools & DB | : Git, GitHub, Docker, Postman, Vite, MongoDB, MySQL, Redis                               |
| Additional | : REST APIs, JWT Auth, Google OAuth, ATS Optimization, Responsive Design                  |

## EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>Software Development Intern</b><br><i>Astronomy and Physics Society, IIIT Jabalpur</i><br>• Worked in a <b>team of 5</b> to build <b>2 production websites</b> from scratch.<br>• Built an <b>AI-powered chatbot</b> using the <b>Gemini API</b> , improving user engagement and marketing outreach.<br>• Developed a <b>rich text editor</b> using <b>BlockNote SDK</b> , enhancing collaborative content creation.<br>• Stack: <b>Next.js, Gemini API, BlockNote, Shadcn-UI (TailwindCSS)</b> . | June 2025 – Present |

## ACHIEVEMENTS & ACTIVITIES

- Achieved **AIR 1** in Psy-co-logic competition at **IIT Roorkee**, representing IIIT Jabalpur.
- Core Member, Astronomy and Physics Society** (June 2025 – Present): Mentored **20+ juniors** and led events **engaging 50+ students**.
