SUMMARY

Full Stack Developer and B.Tech student with hands-on experience building scalable web applications using React, Node.js, and MongoDB. Active open-source contributor across GSSoC, SSoC, C4GT, and Summer of Bitcoin. Strong interest in teamwork, disciplined development practices, and continuous learning.

TECHNICAL SKILLS

- Languages** : JavaScript, TypeScript, C++, Python, HTML, CSS, PHP
Frameworks : React.js, Next.js, Express.js, Node.js, Tailwind CSS, Bootstrap, Redux Toolkit, Zustand
Tools & DB : Git, GitHub, Docker, Postman, Vite, MongoDB, MySQL, Redis
Additional : REST APIs, JWT Auth, Google OAuth, ATS Optimization, Responsive Design

EXPERIENCE

Software Development Intern

June 2025 – Present

Astronomy and Physics Society, IIIT Jabalpur

- Worked in a **team of 5** to build **2 production websites** from scratch.
- Built an **AI-powered chatbot** using the **Gemini API**, improving user engagement and marketing outreach.
- Developed a **rich text editor** using **BlockNote SDK**, enhancing collaborative content creation.
- Stack: **Next.js, Gemini API, BlockNote, Shadcn-UI (TailwindCSS)**.

OPEN SOURCE CONTRIBUTIONS

GirlScript SoC (GSSoC)	Social SoC (SSoC)	Code for GovTech (C4GT)	Summer of Bitcoin (SoB)
Open Source Contributor 2026	Open Source Contributor 2026	Open Source Contributor 2026	Open Source Contributor 2026
View Program	View Program	View Program	View Program

- Contributed bug fixes, feature additions, and UI improvements across **6+ open-source repositories**.
- Raised **10+ pull requests** and resolved **8+ issues** in React, Node.js, and civic tech projects.
- Contributing to **Digital Public Goods (C4GT)** impacting government infrastructure at national scale.
- Gained hands-on experience with **Bitcoin/Lightning Network** protocols through Summer of Bitcoin.

PROJECTS

Resume Signal	MERN · AI · ATS	Source Code Live Demo
- Built a full-stack AI resume analyzer accepting PDF/DOCX uploads, scoring against JDs via a custom ATS pipeline covering keyword match, skill gaps, readability, and formatting. - Integrated OpenAI, Gemini, and Groq with deterministic fallback for bullet enhancement, skill gap analysis, and interview question generation. - Implemented JWT auth, Google OAuth, Helmet, rate limiting; deployed with Docker, Vercel, Render, and GitHub Actions CI. - Stack: React, Vite, Redux Toolkit, Tailwind, Node.js, Express, MongoDB, Redis, Framer Motion.		
Yoom		Source Code Live Demo
- Built a video calling platform with 10+ controls — recording, emoji reactions, and screen sharing. - Integrated Clerk for secure social sign-on; implemented personal meeting rooms with unique links. - Stack: Next.js, TypeScript, Clerk, GetStream, Shadcn-UI (TailwindCSS).		

EDUCATION

Indian Institute of Information Technology, Jabalpur	Jabalpur, India
Bachelor of Technology, Smart Manufacturing	Aug 2023 – Aug 2027

ACHIEVEMENTS & ACTIVITIES

- Achieved **AIR 1** in Psy-co-logic competition at **IIT Roorkee**, representing IIIT Jabalpur.
- Core Member, Astronomy and Physics Society** (June 2025 – Present): Mentored **20+ juniors** and led events **engaging 50+ students**.
