Location: Jabalpur, India

PROFESSIONAL SUMMARY

Full Stack Developer and B.Tech student with hands-on experience in building scalable web applications using React, Node.js, and MongoDB. Completed Full Stack Web Development training from Internshala and collaborated with senior developers on real-world projects. Strong interest in teamwork, disciplined development practices, and continuous learning, with a goal to contribute to global software engineering environments.

TECHNICAL SKILLS

Languages	: JavaScript, C++ , Python, Typescript, HTML, CSS, PHP
Frameworks	: React.js, next.js, Express.js ,Node.js , Tailwind CSS , Bootstrap
Tools	: VS Code, Git, Github
Databases	: MongoDB , MySQL
Soft Skills	: Teamwork, Communication

EXPERIENCE

Software Development Intern

June 2025 - Present

Astronomy and Physics Society

- Worked collaboratively in a **team of 5 to create 2 websites** from scratch.
- Built an **artificial intelligence-powered chatbot** leveraging **Gemini API** to interact with users and offer detailed club information, strengthening marketing efforts and vastly **improving user experience**.
- Developed an **organized text editor using BlockNote SDK**, which enhanced collaborative efficiency and user engagement.
- Technologies used : **Next.js , GeminiAPI , Blocknote and Shadcn-ui (TailwindCSS)**.

PROJECTS

Yoom

[Source Code](#)

- Implemented an **engaging video calling platform**, enabling full **participant control over 10+ aspects**, such as **recording, emoji reactions, and screen sharing**, boosting user interaction.
- Integrated **authentication and authorization** features using **Clerk**, allowing users to securely log in via **social sign-on**.
- Streamlined meeting management by implementing personal **meeting rooms** with **unique links** for **real-time collaboration**.
- Technologies used :**Next.js, TypeScript, Clerk, getstream and Shadcn-ui (TailwindCSS)**

Artworks-App

[Source Code](#)

- Developed a small **React + TypeScript** application using **Vite** and **PrimeReact** that displays artworks from the Art Institute of Chicago API with pagination, search, and row selection features.
- Implemented server-side pagination and search functionality to efficiently fetch and display artworks based on title or artist.
- Built a reusable **DataTable component** with persistent row selection and an interactive “Select N” overlay for custom multi-row selection.
- Technologies Used: **React, TypeScript, PrimeReact, Fetch API**

EDUCATION

Indian Institute of Information Technology , Jabalpur

Bachelor of Technology , Smart Manufacturing

Jabalpur, India

Aug 2023 – Aug 2027

ACHIEVEMENTS

- Represented IIIT and achieved AIR 1 on psy-co-logic in IIT Roorkee

Astronomy and Physics Society

June 2025 - Present

Core Member

- Mentored 20+ juniors regarding astronomy and physics for the past 8 months.
- Organized and led events **engaging 50+ students**, demonstrating **strong public speaking and management skills**.
